Bathroom aesthetics

Managing Director and Designer Oliver Jörger

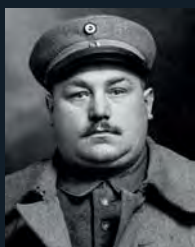

A Tradition of Innovation since 1909

The Jörger family has designed and crafted bathroom faucets and accessories of supreme sophistication and beauty for over four generations. Since Bernhard Jörger was entrusted by Friedrich II of Baden to furnish the bathrooms of his Mannheim palace in 1909, through the engineering

and design advancements of his grandson Gerhard Jörger in the 1960s and 1970s, to Oliver Jörger's continuing creative inspiration today, the Jörger family crest has signified the ultimate blending of materials, engineering and hand finishing.

The Highest Expression of Form for the Most Exceptional Spaces

Continuing in the tradition of world renowned German engineering and hand crafting, highly trained and dedicated artisans use only the finest materials to produce Jörger faucets and accessories.

Specially formulated brass cast and honed for spouts, valves and handles. Precious metals create exquisite finishes and

tones. And natural stones, crystal and porcelain add one of a kind decorative accents.

Human ingenuity is brought together with the most sophisticated technology inside the Jörger family's own workshops in Mannheim, Germany.

Along with this commitment to the best craft and material, Jörger is also distinctive for developing its own designs in house under the creative control of managing director Oliver Jörger.

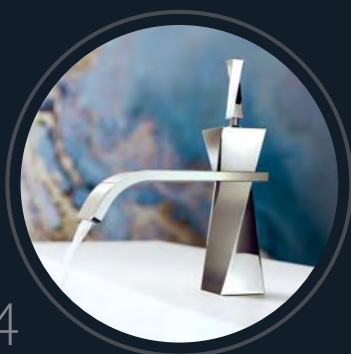

Since earning his degree in industrial design, Oliver has defined the company's unique blend of modern attitude with traditional ideals for over 20 years. Drawing inspiration from

nature, extraordinary architecture, and classical geometric shapes, Oliver has designed internationally successful collections including EXAL, VALENCIA, TURN, EMPIRE ROYAL and CRONOS.

And because both design and production are in house, Oliver's existing collections can also be customized to meet a project requirement or customer request.

„Designing for Jörger is a task that gives me great joy and satisfaction.“

BELLEDOR

Exquisite porcelain in full bloom

FÜRSTENBERG

1747

Classically elegant, the timeless beauty of porcelain inspired Oliver Jörger to create the BELLEDOR collection.

Famed German porcelain maker FÜRSTENBERG who for over 275 years has produced noble manufactory porcelain in Lower Saxony has created naturally inspired handles.

Delicate and graceful, though possessing the materials' resilient qualities, their ornamental floral detail is perfectly offset by BELLEDOR's soft modern design.

A complete range of coordinated accessories perfectly complete this classic series.

CRONOS

Design made for eternity

Sometimes it's the little things in everyday life that bring forth something special. It was the Grandfather's watch, or more precisely, the crown of this historic pocket watch, that inspired Oliver Jörger to create the modern design of CRONOS.

Clarity and classical elegance characterise this stylish collection. Like fluting on ancient pillars, fine lines grace the surface of the fixture. The soft shape of the body offsets the strict linear feel.

PALAZZO CRYSTAL

Glittering Diamond

The diamond, as the most glittering of precious stones, supplied Oliver Jörger with the inspiration for „Palazzo Crystal“ range of faucets and accessories, turning every bathroom into a jewel.

A bright glow fills the bathroom: Crystals take you back to the magnificent times of luxury in palaces. The beauty, clarity and exclusivity of the diamond was Oliver Jörger's source of inspiration during the development of the classical „Palazzo Crystal“ range of faucets and accessories.

Crystals with a sophisticated diamond polish refine the round handles and elements of all the fixtures in every detail of the wide range of accessories. On washbasins, bidets, and bathtubs as well as in showers, the crystals merge with water and light and unfold their magic, with fascinating effect.

Soft lines give the form warmth and harmony: The fixture spout is softly curved and the round rosettes finish off perfectly the form of the crystals. Exquisite, hand-finished surfaces complete this luxurious bathroom design.
