

Sophisticated bathroom design with „Acubo“

New fixture design „Acubo“ meets with high level of acceptance /
Scaled down version of the „Empire II“ series / Excellent value for
money

Mannheim – Clear, modern and stylishly simple – eloquently describes
the appearance of the new fixture based on the „Empire II“ series.
This range abandons the characteristic upward reaching arches in
order to accentuate the straighter, clearer lines of the design.

The clearly defined geometric form of the hand lever and the main
body of the fixture have both met with wide acceptance among bath-
room specialists.

The scaled-down form of the „Acubo“ series has simplified the produc-
tion process, thereby creating a financially attractive design solution
for a wider customer base. However, no compromises have been made
as far as quality and variety of surface finishes and models is con-
cerned. The series of bathroom fittings is skillfully rounded off with a
range of matching accessories.

Whether incorporated into a new building design or as part of a reno-
vation process, „Acubo“ creates a sophisticated bathroom atmosphere.

About Jörger

Jörger Armaturen- und Accessoires-Fabrik GmbH is located in Mannheim, Germany and is not only an international manufacturer and supplier of fittings but also offers a wide range of accessories to match their exclusive designs. These are created entirely in elaborate craftsmanship – handcasted, smoothed and polished, providing a very special standard of quality and exceeding even the highest expectations.

The company philosophy is to offer not only a design for a complete bathroom, but moreover an entirely new experience. Washing units created from porcelain, wood, glass, stainless steel or terracotta and other selected components complement the range of taps and accessories.

„Jörger Designs“ are perfectly coordinated. Designs in which form and function blend harmoniously into each other and where the aesthetic style releases a burst of creativity.
