

„Delphi Deco“ – The Magic of Crystals

The range of fittings and accessories revives the style of the glamorous „Art Déco“ era

Mannheim – The „Art Déco“ era began in a period of artistic transition at the start of the 20th century. It was not particularly characterized by a specific style, but moreover by the creative combination of elegant forms, valuable materials, intensity of colours and surfaces and the sensuality of the subject. This era represents luxury and elegance.

The „DelphiDeco“ range developed by the long-established company Jörger in 2010, is a tribute to the „Art Déco“ time. The soft, organic design of the various fittings and accessory components defines the classic impression in a modern way.

Discerning customers with a fine eye for style will most certainly appreciate the collection with its high quality surface, in chrome, brass or gold. (10 different surfaces are available) and the luxurious crystal handles in a clear design, or also currently available in black.

Crystals have a centuries old tradition as a form of jewellery. Designed to mirror the special atmosphere of each era. The beauty lies in the detail. Flawless crystals polished to an extremely high quality adorn every handle element of the „Delphi Deco“ range. Each one is provided with the Swarovski logo. It is exactly this combination of gold surface and black crystals that will impress and fascinate and which represents the ideology of the „Art Déco“ era.

The „Delphi Deco“ range of fittings and accessories sets an exclusive accent in modern bathroom furnishings and revives the glamour and luxury of past times.

About Jörger

Jörger Armaturen- und Accessoires-Fabrik GmbH is located in Mannheim, Germany and is not only an international manufacturer and supplier of fittings but also offers a wide range of accessories to match their exclusive designs. These are created entirely in elaborate craftsmanship – handcasted, smoothed and polished, providing a very special standard of quality and exceeding even the highest expectations.

The company philosophy is to offer not only a design for a complete bathroom, but moreover an entirely new experience. Washing units created from porcelain, wood, glass, stainless steel or terracotta and other selected components complement the range of taps and accessories.

„Jörger Designs“ are perfectly coordinated. Designs in which form and function blend harmoniously into each other and where the aesthetic style releases a burst of creativity.
