

Empire Royal Crystal – Range of taps sets royal accents

Mannheim – Subtle clarity and practicality characterize the „Empire Royal Crystal“ series. The aesthetically curved outlet of the tap lifts from a square base element. The covered flow control forms a soft, pearling stream of water.

The aesthetic highlight of this series are, without doubt, the sophisticated crystal handles. In contrast to the simple handles of the „Empire Royal“ series, the crystals produce a very special, emotional effect. Their fine polish harmonises with the subtle design of the fitting elements.

Depending on the finish and the colour of the crystals – black and white have been introduced to the range – the impression of the fitting is defined in different ways.

The surface finish in “sunshine” combined with black crystal handles creates an exciting contrast, turning the tap into a modern work of art. In combination with clear crystals, the tap exudes a stylish, luxurious feel.

The series of taps is available with the following surfaces: chrome, platinum, platinum matt, sunshine , sunshine matt, bronze, mink, mink matt and gold.

About Jörger

Jörger Armaturen- und Accessoires-Fabrik GmbH is located in Mannheim, Germany and is not only an international manufacturer and supplier of taps but also offers a wide range of accessories to match their exclusive designs. These are created entirely in elaborate craftsmanship – handcasted, smoothed and polished, providing a very special standard of quality and exceeding even the highest expectations.

The company philosophy is to offer not only a design for a complete bathroom, but moreover an entirely new experience. Washing units created from porcelain, or glass and other selected components complement the range of taps and accessories.

„Jörger Designs“ are perfectly coordinated. Designs in which form and function blend harmoniously into each other and where the aesthetic style releases a burst of creativity.
